Below the price is a blue "Add To Cart" button. A "Description" section follows, detailing the phone's features: "The first Galaxy S with embedded S Pen. Write comfortably like pen on paper, turn quick notes into legible text and use Air Actions to control your phone remotely. Improved latency in Samsung Notes makes every pen stroke feel as natural as ink on paper — and you can convert those hastily written ideas into legible text. 5G Ready powered by Galaxy's first 4nm processor. Our fastest, most powerful chip ever. That means, a faster CPU and GPU compared to Galaxy S21 Ultra. It's an epic leap for smartphone technology." Below the description is a section titled "Question and Answer".
